

Our Advantages

Higher Energy Savings through using highly efficient products and superior system controls

Improved Indoor Comfort will make tenants feel more satisfied and stay longer

Fully Automatic system operation - meaning no user interaction required

Landlord Ventilation

Our Landlord Solution system is a ventilation system designed specifically for rental properties, to keep the house ventilated at the optimal levels to maintain high Indoor Air Quality, making your property healthier and keeping your tenants happy.

BRANZ research has shown that around 30-50% of rental homes are damp and mouldy. Every year, 40,000 children are admitted to hospital from diseases related to poor housing conditions.

Every New Zealander deserves a healthy home to live in.

ENERGY

EFFICIENCY

EVOAQ

Our Systems

Using the latest technology and most energy-efficient products, we have created the most advanced ventilation systems to give you constant 24/7 ventilation, while having minimal effect on the thermal comfort and noise levels in your home.

The only system designed to meet ERP Energy Performance levels and ASHRAE 62.2 Indoor Air Quality standards.

30% cheaper · 60% more efficient · 30% faster to install*

*compared with other similar systems

NEW REGULATIONS COMPLIANT

Demand Controlled Ventilation

Our systems use DCV - the ventilation rate is automatically adjusted according to user demand and the quality of incoming air, using our built-in intelligent controller which constantly senses air quality to regulate the level of ventilation.

Our specialised software determines the correct fan speed based on established standards, to achieve high indoor air quality as well as maximum thermal comfort.

Continuous Ventilation

By combining our DCV controls with highly energy-efficient EC fans, our systems can achieve high airflows when the outdoor air quality is good.

Most importantly, they can also achieve very low airflows when the outside air may affect the thermal comfort inside your house.

This is how our systems are able to ventilate continuously, where most other systems would turn off.

Available Upgrades - Summer Feature - Heat Transfer - Premium Filter with 6 levels of Filtration

Our Advantages

Higher Energy Savings through using highly efficient products and superior system controls

Improved Indoor Comfort will make tenants feel more satisfied and stay longer

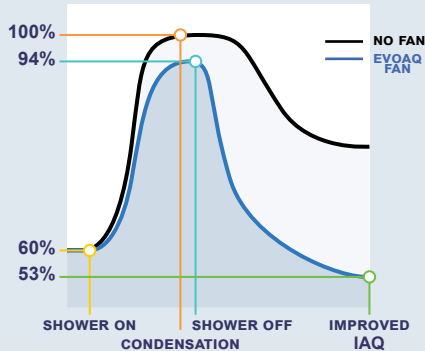

Fully Automatic system operation - meaning no user interaction required

Landlord Extraction

Our Landlord Extraction system has been specifically designed to automatically extract damp air from your tenants bathroom, to maintain high Indoor Air Quality and prevent mould and mildew from growing.

On-Demand Extraction is the best way to protect the house from condensation and mould damage, keeping the bathroom fresh and tenants happy.

BATHROOM HUMIDITY LEVELS

Our System

Our extraction systems use custom-made, fully automatic fans with built-in sensor controls, to provide you with the best protection for you and your bathroom. These fans constantly monitor the humidity levels and adjust the extraction rate as needed, to remove all excess moisture from your bathroom - without ever needing to flick a switch.

All EVOAQ Extraction Systems comply with the new 2019 Healthy Homes Standards

Demand Controlled Ventilation

Our extraction systems use DCV - the extraction rate is automatically adjusted according to fluctuating humidity levels, using our built-in intelligent controller which constantly monitors the bathroom air to regulate the level of extraction.

Our specialised software determines the right fan speed in order to maintain low humidity and minimize moisture damage within your bathroom.

Continuous Extraction

By combining our DCV controls with highly energy-efficient EC fans, our systems can use high airflows when extraction is required the most.

Additionally, the system keeps running at very low levels even when the bathroom is not in use, to continue removing any excess moisture from the bathroom.

This is how our systems are able to extract continuously, where others would turn off.

Available Upgrades - Backdraft Shutter - ABS Egg Crate Grille - Stainless Steel Cowl
